

Creating a Landing Page using Hub spot

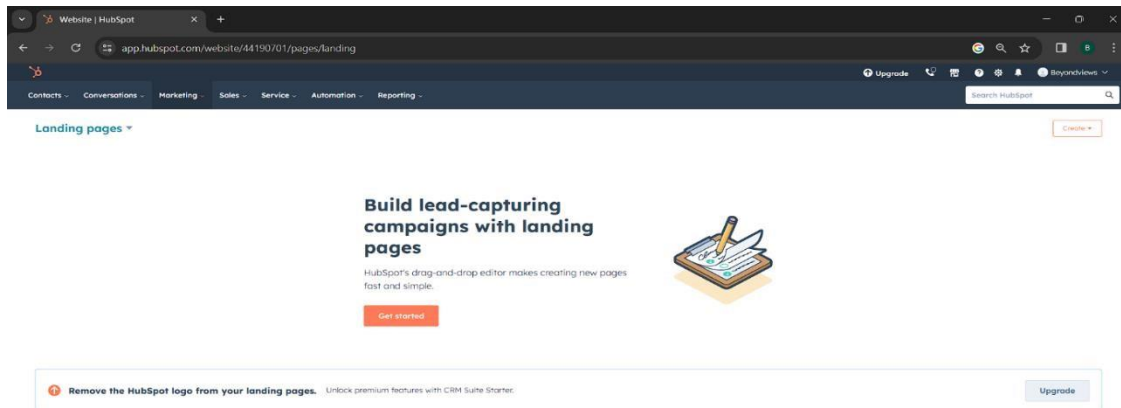

Create a Account with the industry type and job description and ect....

Marketing-Landing page:

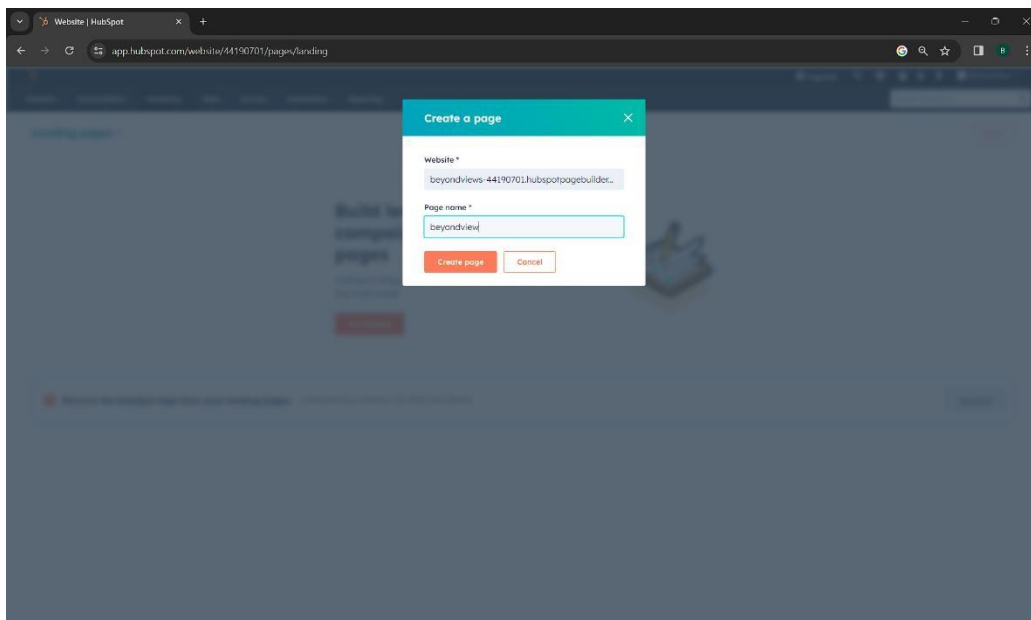

In the marketing field the landing page will be chosen.

Get Started:

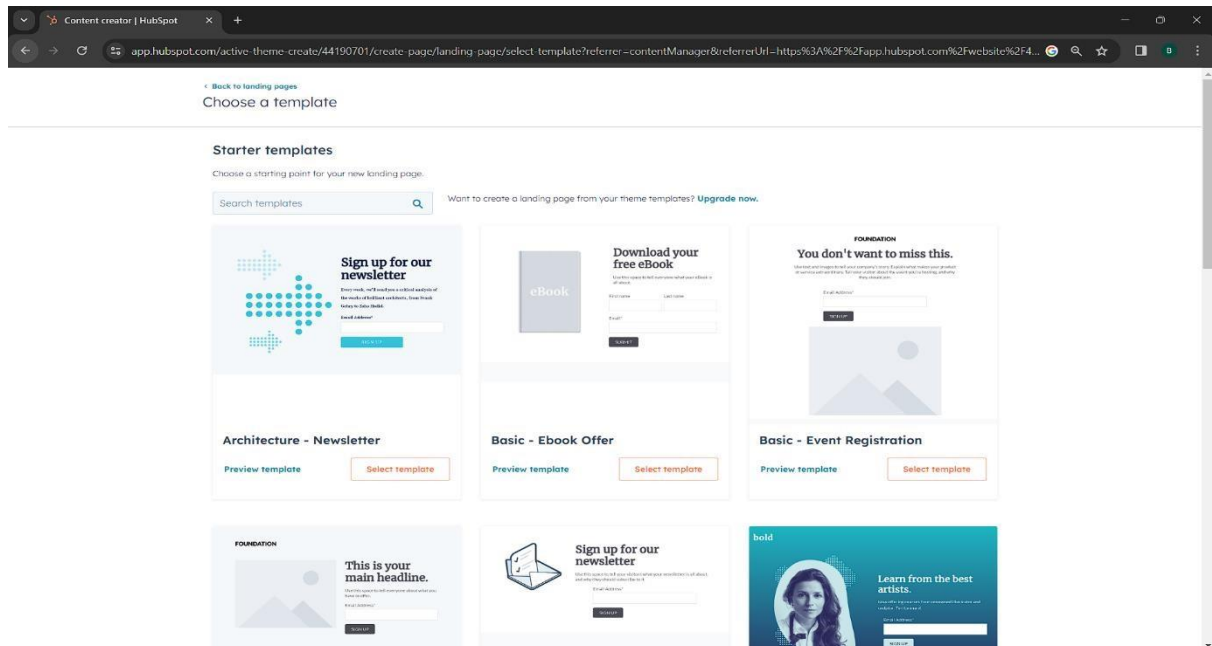

Get started with landing page and create a business to business (b2b) communication.

ADD WEBSITE/PAGE NAME:

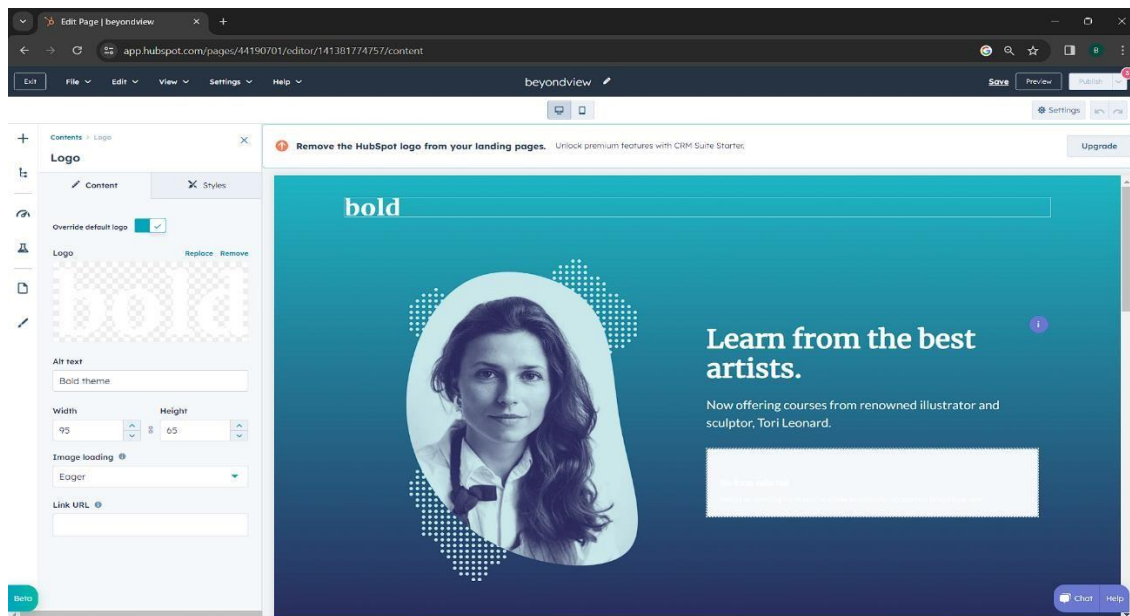

Create a page name relevant to the landing page.

TEMPLATE:

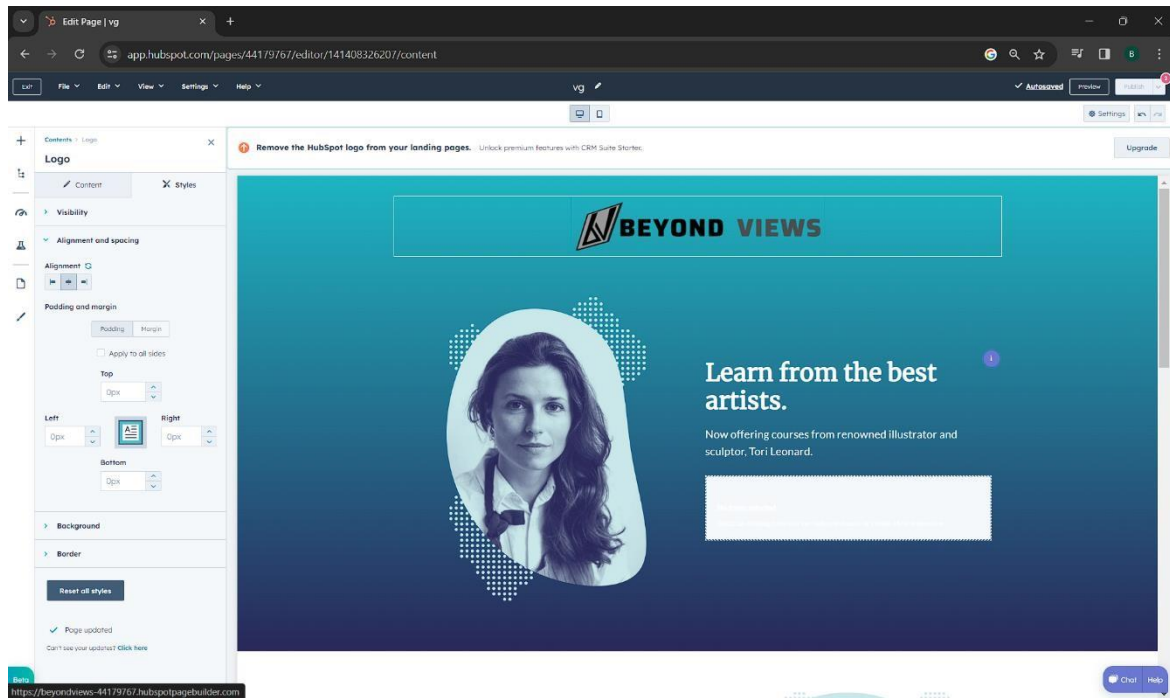

There are several template have been displayed in the page we have to choose the relevant template for our project.

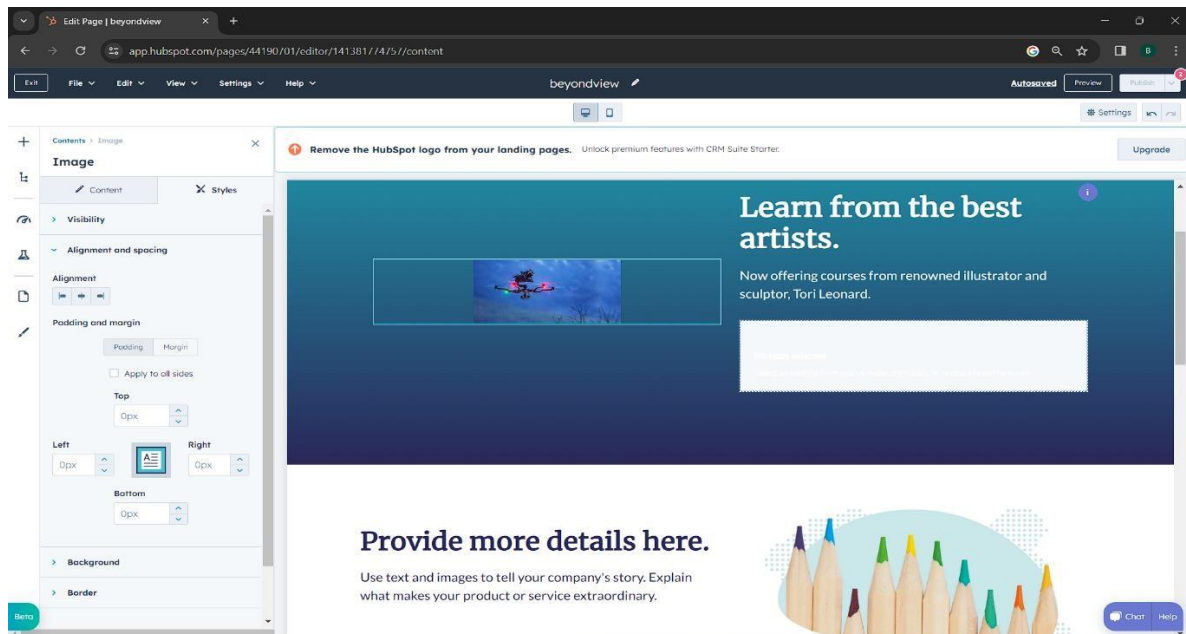

This is the interface for landing pages with our template.

LOGO:

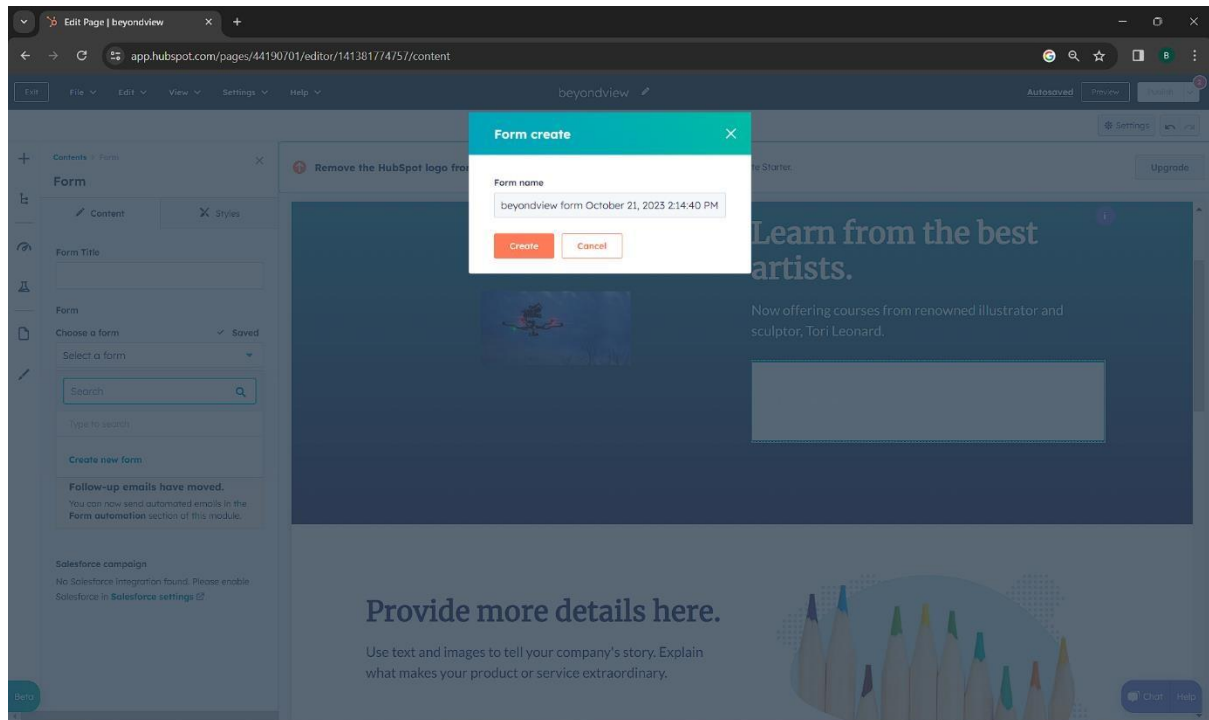

Add logo to the landing pages that you are creating with your own company **Add Content:**

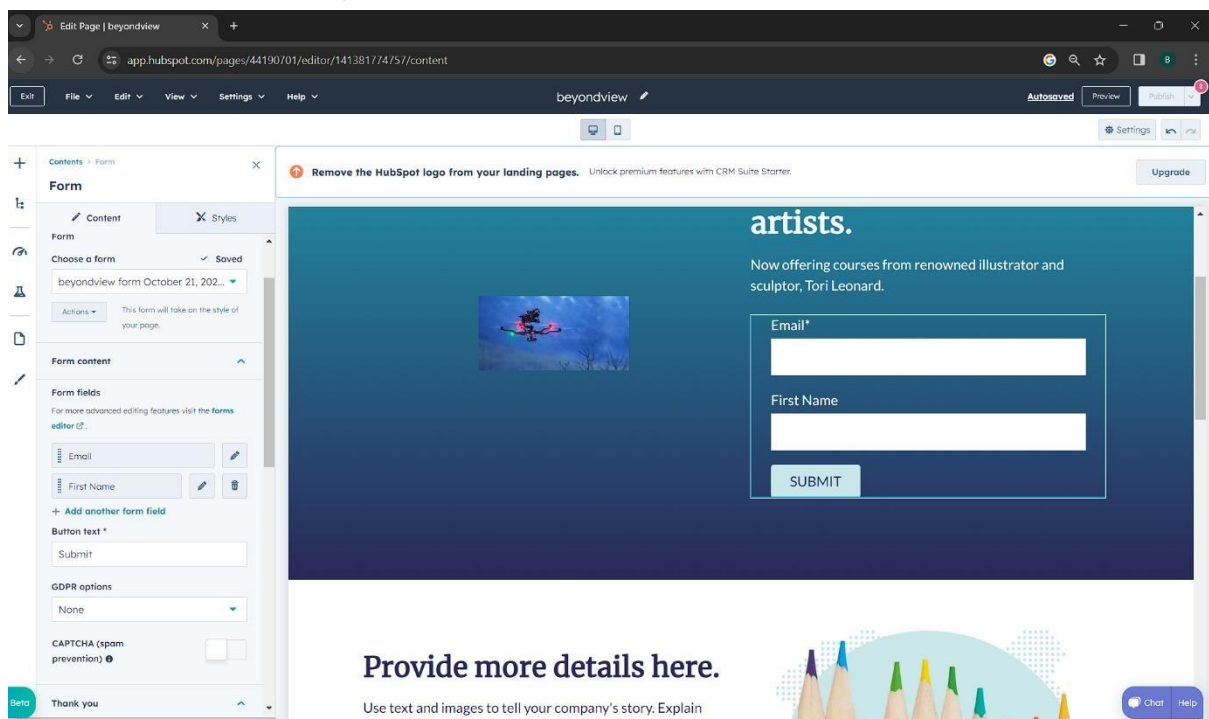

Add content to your landing page like image , title, content and so on.

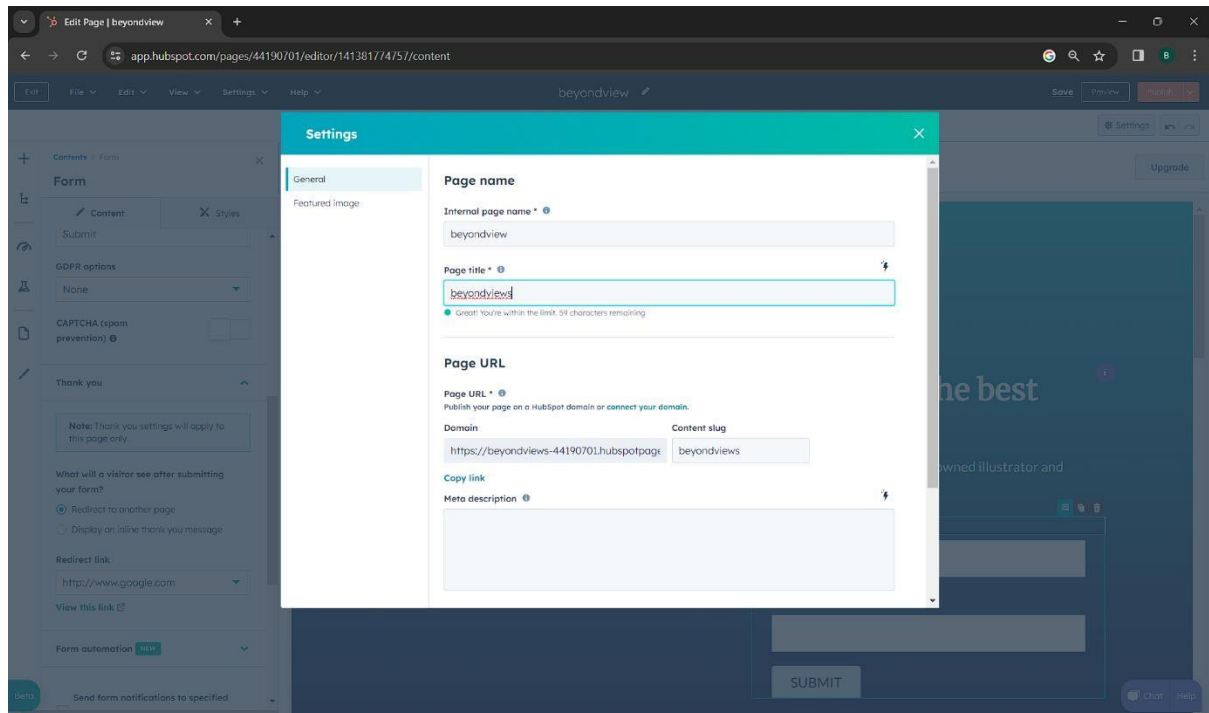

SELECT FORM:

Create a form that contains a Email, First Name and Last name Summit option.

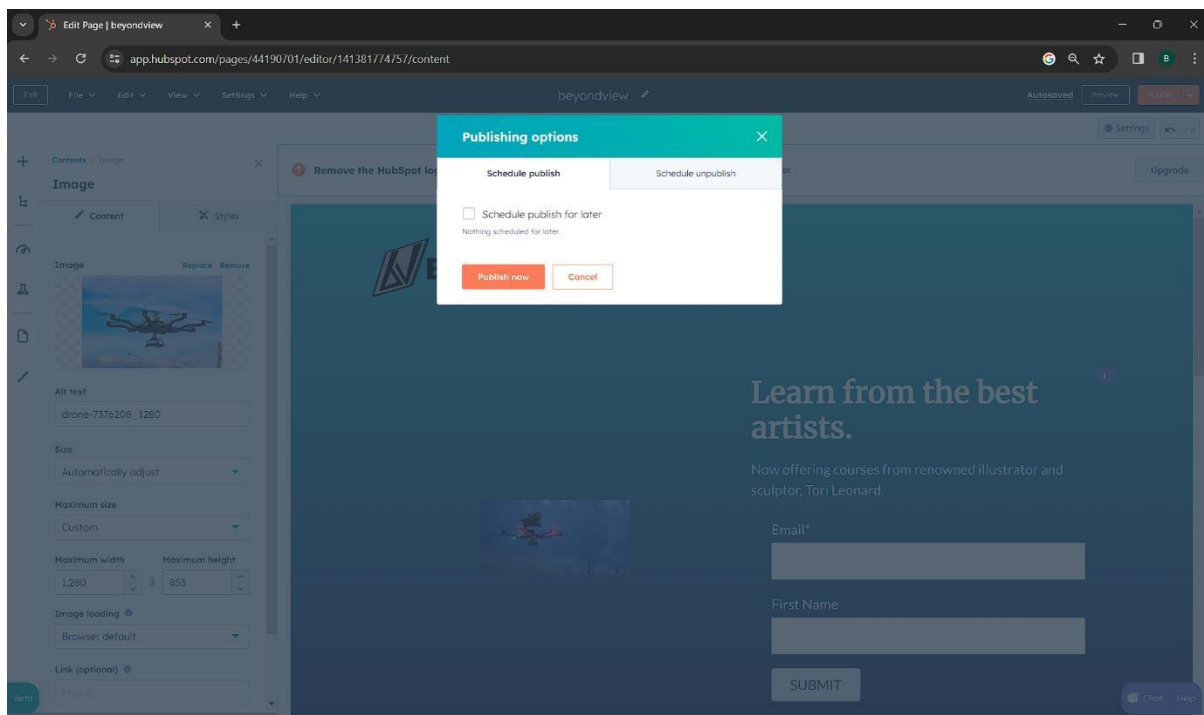

PAGE TITLE AND SLUG:

The screenshot shows the HubSpot page editor interface. A 'Settings' modal is open, displaying the 'General' tab. The 'Page name' section includes an 'Internal page name' field with the value 'beyondview' and a 'Page title' field with the value 'beyondview'. Below this, the 'Page URL' section shows a 'Domain' field with the value 'https://beyondviews-44190701.hubspotpage' and a 'Content slug' field with the value 'beyondviews'. A 'Meta description' field is also present but empty. The background shows a dark-themed page layout with a 'SUBMIT' button and a 'Chat' icon.

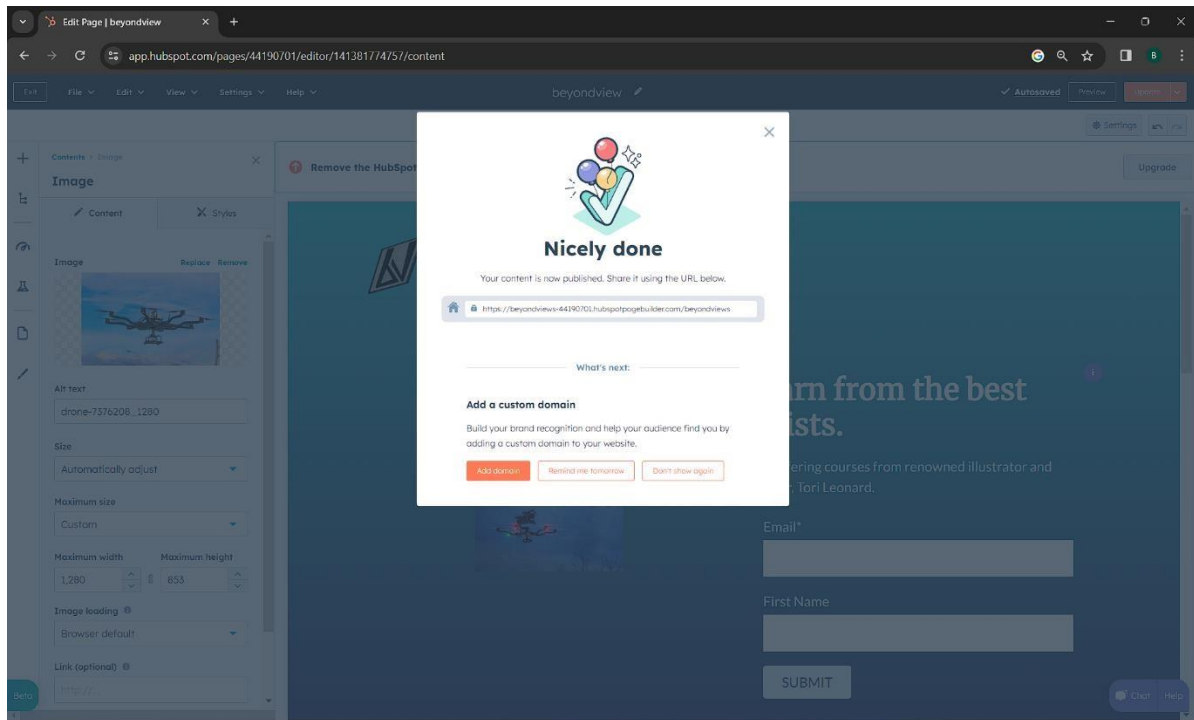

Create a Page Name and Slug for the Page URL .Otherwise we can't publish the landing page.

PUBLISH:

The screenshot shows the HubSpot page editor interface. A 'Publishing options' modal is open, displaying the 'Schedule publish' tab. The modal includes a checkbox for 'Schedule publish for later' which is currently unchecked. Below this, there is a 'Nothing scheduled for later' message. At the bottom of the modal, there are two buttons: 'Publish now' and 'Cancel'. The background shows a dark-themed page layout with a 'SUBMIT' button and a 'Chat' icon.

Here the publish option we can schedule the publish based on timing.

This is the final procedure for creating a landing page with the Hubspot.
